1	BRAKE, AIRCRAFT, TRI-METALLIC	90006366	1 EA	FEB19-0401	OVERHAULED

12. Remarks:

This unit was overhauled, tested, and inspected on service order 45488506 in accordance with Component Maintenance Manual AP-959 (ATA 32-44-95) Rev 01 Dated 2022/04/29. All Service Bulletins and FAA Airworthy Directives have been complied with.

Meggitt Aircraft Braking Systems KY Corp certifies that the work specified in Blocks 11 and 12 was carried out in accordance with EASA part 145, and with respect to that work, the component is considered ready for release to service under EASA Part 145 Approval Number EASA.145.6685.

13a. Certifies the items identified above were manufactured in conformity to:

Approved design data and are in a condition for safe operation.

Non-approved design data specified in Block 12.

14a. ☑ 14 CFR 43.9 Return to Service ☑ Other regulation specified in Block 12

The electronic signature in the approval for return-to-service block meets the requirements of the Repair Station Operating Specification.

Certifies that unless otherwise specified in Block 12, the work identified in Block 11 and described in Block 12 was accomplished in accordance with Title 14, Code of Federal Regulations, part 43 and in respect to that work, the items are approved for return to service.

User/Installer Responsibilities

It is important to understand that the existence of this document alone does not automatically constitute authority to install the aircraft engine/propeller/article.

Where the user/installer performs work in accordance with the national regulations of an airworthiness authority different than the airworthiness authority of the country specified in Block 1, it is essential that the user/installer ensures that his/her airworthiness authority accepts aircraft engine(s)/propeller(s)/article(s) from the airworthiness authority of the country specified in Block 1.

Statements in Blocks 13a and 14a do not constitute installation certification. In all cases, aircraft maintenance records must contain an installation certification issued in accordance with the national regulations by the user/installer before the aircraft may be flown.
